

Century Gothic

*“a compelling new look that had
the best of both worlds”*

Century Gothic™ is based on Monotype 20th Century, which was drawn by Sol Hess between 1936 and 1947. Century Gothic maintains the basic design of 20th Century but has an enlarged x-height and has been modified to ensure satisfactory output from modern digital systems. The design is influenced by the geometric style sans serif faces which were popular during the 1920s and 30s. The Century Gothic font family is useful for headlines and general display work and for small quantities of text.
